

THOMAS HASS 6TET

The Super Soul Gravity Orchestra

October 2024

For the first time in his career, saxophonist and composer Thomas Hass has chosen to assemble a sextet. The group consists of younger musicians who are all among the greatest talents of their generation, musicians he has played and recorded with in various groups over recent years.

Thomas composed and arranged for the DR Big Band and German NDR Big Band several years ago, and in this ensemble, he unleashes his inner arranger after years of dormancy. The orchestra plays Thomas's compositions, featuring a mix of brand new pieces and selected older compositions in new arrangements. The music is both physical and lyrical, cinematic and performed in an open and intuitive atmosphere.

Thomas Hass is one of Denmark's prominent tenor saxophone names. He has influenced Danish jazz for decades with his creative, colorful, and intense playing, which can be heard on 17 albums featuring trio, quartet, and quintet recordings with some of the country's leading jazz artists

Thomas Hass Christensen has composed music for various film and TV projects, extending his work beyond Denmark to international productions in Paris and Los Angeles

Line up:

Thomas Hass: Tenor og sopransax
